EXAMINER INTERVIEW SUMMARY

The undersigned would like to thank Examiner Shibru for the courtesies extended in a telephonic examiner interview conducted on April 17, 2007.

During the interview, the teachings of the cited prior art were generally discussed. In particular, the difference between an out of disk alert and an out of disk alert user setting were discussed. While no agreement was reached regarding the patentability of the claims, the undersigned believes that the interview clarified the issues in the case in an effort to advance prosecution.
